1.3	Matters Arising	<p>A Horsfall spoke of the value of holding an onsite meeting held with Council's Roading Manager John Jones and Matt Williams as well as reps from the School Board of Trustees, School Principal, Reps from the Trust, and the community. The Council will be putting in an additional turning lane as well as will be cutting back some of the foliage from the hill to improve the line of sight. John will be coming back to the community with some drawings of what is proposed.</p> <p>John Jones had commented that he did not think that the City to Sea pathway would eventuate as the cost to do this makes the project unviable without Central Government and third party funding. Alan said that he had done some investigation into the project which started off with simply looking at a pathway that would get children safely to and from school rather than the larger plan which has eventuated. He wondered whether it would be worthwhile going back to the original small project. Perhaps from the Hall through to the beach. He will talk to the Trust about this further.</p> <p>It was noted that no progress has been made with holding a drainage meeting. Crs Casey</p>	John Jones MDC A Horsfall
