Multiple calls to flashing lights, especially when increased numbers at the beach. Multiple calls this summer, at one point sewage holding tank was overflowing onto ground. 		<p>Barling St speed humps</p> <p>Question put forward; do we want speed humps?</p> <p>Council have done surveys on the road and the volume of use does not allow it to be widened at this stage, there are roads in the Manawatu that have more traffic and need to be rectified sooner.</p> <p>Discussion had, for and against speed humps.</p> <p>The issue that was originally put forward to council was that that road edges were crumbling and it is not wide enough to cater the traffic according to locals.</p> <p>It was decided that because there was no clear solution available to us at this point, we would park this topic for now (approximately 3 months), until we have better reach within the community, specifically those that use Barling Street. Once we have sorted our Communication Strategy and developed a strong following, we will then re ask for a vote. This will be put in the agenda prior to the meeting.</p> <p>We will look at putting forward a submission for the widening of Barling St when MDC open up submissions for the next Long-Term Plan- if this is something the community feels is important.</p> <p>Beach Entrance – Meeting ran late so was ended before addressing this.</p>
