

General Business:

It was decided that more tables needed to be purchased for the Hall, as a considerable number will be needed for the Jubilee next year, and they are always useful.

1st Mary-Anne

2nd Hugh

Roads – same old, same old! Roads in general are in an anecdotally deteriorating state. Particular mention was made of the Pakihikura and Waipuru roads which are being gouged due to the forestry operations up there, with 30+ trucks a day coming out, and projected timeframe of another 4 years. This was just one example, which will be a continuing factor with so much forestry now in the region, and the generally much higher road usage. Talk was of a system that allows for this with roads being eventually renovated at the end of block harvest.

And again with the lights on Rewa hill, a mounting dissatisfaction with Tranzit for their inaction for how long now? Months?? Years??? If it takes too much longer they may find their lights relocated to SH1!

A request was made that when the verge is mowed by Council between the school and the cemetery, that perhaps they could whip up the road and also do the grass on the other side of the Hall – just as far as the sign. Could be a H&S issue, with people being able to see traffic coming when driving out of the carpark.

Community Xmas Party:

Sunday 22nd December at the Hall – start about 5:30pm

Bring a plate for a combined barbeque and drinks of your choice.

Meeting finished at 8:02pm

**Next meeting, including AGMs for Hall and Community
Wednesday 8th March 2020 at 7:05pm**
